## **Agenda for re-allocation of entities granted connectivity at Tumkur-II to Tumkur (Pavagada) PS**

Tumkur (Pavagada) PS was planned and developed as part of Green Energy Corridor under Ultra Mega Solar Power Park scheme for evacuation of RE power from Tumkur/Pavagada REZ complex. Subsequently, Tumkur-II PS was planned and taken up for implementation for evacuation of additional RE potential identified by MNRE/SECI in Tumkur/ Tumkur (Pavagada) REZ complex.

Presently, Tumkur (Pavagada) PS is under operation with 6x500 MVA, 400/220 kV ICTs. Further, additional 4x500 MVA, 400/220 kV (7<sup>th</sup> – 8<sup>th</sup>) ICTs are under implementation. SCoD for 7<sup>th</sup> ICT and 8<sup>th</sup>-10<sup>th</sup> ICTs are 16.08.2025 and 21.05.2026 respectively.

It is to mention that connectivity corresponding to 3350 MW has already been granted to various RE developers at Tumkur (Pavagada) PS with 8x500 MVA, 400/220 kV ICTs. However, due to non-availability of additional space for augmentation of transformation capacity, Tumkur (Pavagada) PS was closed for grant of additional connectivity to RE developers, as per deliberation of the 25<sup>th</sup> CMETS-SR meeting held on 28.11.2023.

Subsequently, after closure of Tumkur (Pavagada) PS for grant of Connectivity, Tumkur-II PS was planned with 4x500 MVA, 400/220 kV ICTs. Presently, 10 nos. of applicants have been granted/ agreed for grant connectivity for 2700 MW at Tumkur-II PS and same is under implementation with SCOD as 03.09.2026.

Meanwhile, M/s KSPDCL submitted application for enhancement of connectivity for 300 MW for its under operation 2050 MW Solar power park at Tumkur (Pavagada). However, after closure of Tumkur (Pavagada) PS, M/s KSPDCL was granted connectivity at Tumkur-II PS. To get the connectivity at Tumkur (Pavagada) PS, KSPDCL facilitated for acquisition of additional land adjacent to existing Tumkur (Pavagada) PS for augmentation of transformation capacity by 2x500 MVA (9<sup>th</sup> & 10<sup>th</sup>), 400/220 kV ICTs. The matter was deliberated in 21<sup>st</sup> NCT meeting held on 06.08.2024, wherein it was agreed that transformation capacity may be augmented at Tumkur (Pavagada) PS by 2x500 MVA, 400/220 kV (9<sup>th</sup> & 10<sup>th</sup>) ICTs with SCoD as 21.05.2026.

It may be noted that cumulative connectivity corresponding to 4500 MW (considering N-1 contingency criteria) may be considered for grant at Tumkur (Pavagada) PS against 10x500 MVA, 400/220 kV ICTs. Accordingly, additional connectivity margin corresponding to 1150 MW (4500 MW – 3350 MW) is available at Tumkur (Pavagada) PS.

It is therefore proposed that available margin at Tumkur (Pavagada) PS may be offered for reallocation to the applicants at Tumkur-II PS as per the priority of the applications. Details of the applicants granted/ agreed for grant connectivity at Tumkur-II PS is given at **Annexure-I**. Further, if margins are still left at Tumkur (Pavagada) PS, after reallocation of connectivity from Tumkur-II PS to Tumkur (Pavagada) PS, the same shall be offered for grant to fresh connectivity applications.
