- Above applications were discussed in the 43<sup>rd</sup> & 44<sup>th</sup> CMETS SR, held on 27.02.2026 & 06.03.2026 respectively, wherein it was informed that all applications seeking non-solar hour access through BESS under 5.2, 4.5(a) and 5.11 will be discussed in next CMETS-SR.

Application received for grant of addition in generation capacity at various pooling station in Southern Region applied under Regulations 5.2 of GNA Regulations has been listed in above table. Studies analysis has been carried out, and it has been observed that addition in generation capacity to above applicants may be granted against their grant of connectivity at various pooling station in Southern Region.

In view of above, it is proposed that addition of generation capacity may be agreed for the above applications as per the details given below:

- It may be noted that injection of power during solar and non-solar hours shall be restricted to the connectivity granted to parent connectivity application against which addition of additional capacity has been sought and shall be governed by the injection rights during solar and non-solar hours of parent connectivity application.
- It may be noted that details towards grant of drawal quantum from the grid shall be intimated separately to applicant (with requirement of additional Conn BGs, if applicable), after completion of detailed system studies and deliberations in CMETS meetings.

**Note:** Applicants are required to submit applicable BGs within one month from the date of intimation of in-principle grant of Connectivity.
