**Corrigendum to the Minutes of 13<sup>th</sup> CMETS-ER issued on 06-12-2022**

1. In the 14<sup>th</sup> CMETS-ER held on 29-12-2022, the following para was agreed to be appended in the minutes of the 13<sup>th</sup> CMETS-ER at para 2.6:

*“In response to the proposal of ERPC for implementation of proposed New Laxmikantapur S/s under ISTS, WBSETCL stressed that they will construct the proposed New Laxmikantapur 400/132/33kV S/s as it was conceived by WBSETCL mainly for catering the high growth in load demand at 132kV & 33kV voltage level in that region of the South 24 Parganas district with increased reliability of the downstream 132kV network. Regarding RoW issues, it was stated that in spite of severe RoW problem, WBSETCL has been able to successfully complete the construction of a considerably long 400kV Gokarna-New Chanditala D/c line (approx. 380ckm) very recently.”*
