

Clarification-II dated 02.07.2024 to the bidding document of **Appointment of Independent Engineer for “Western Region Expansion Scheme XXXIII (WRES - XXXIII): Part C”**. Spec. No. CTUIL/IE/2023-24/32. GeM Bid No.: GEM/2024/B/5045936 dated 13.06.2024

Sr. No	Clause No.	As per RfP Document	Clarifications sought by bidders	Clarifications from CTUIL
1.	Page 1 of 5, Annexure-I to Section-III_QR	The proposal shall be submitted by an individual firm and not a JV/Consortium.	We request CTUIL to allow <b>JV/Consortium</b> participation so that new firms like us with the required competency can participate and provide the best services to CTUIL. Since we may not meet the first QR criteria related to Independent Engineer/ Lender’s Engineer /Project Management Consultant for a minimum of one (01) 220 kV or above completed Transmission Line of 25 km length on our own, we, along with our JV partner, may be able to meet the required QR. Our joint bid could offer CTUIL a unique experience, as we bring best practices from engineering design consultancy and PMC experience in the Transport Sector, where Transmission is considered the backbone of the new-age E-Mobility segment.	Requirement of bidding documents shall be followed.
